

NSF Support

Besides the ICHMT Grants for young scientists, some funding is available from the National Science Foundation (NSF), USA, for travel of American citizens and residents for travel to attend the conference. Those who are interested, please apply to the Symposium Chair, Professor Yogesh Jaluria. The grant would cover the registration fees and a portion of the travel expenses, the total being less than one thousand US Dollars per person. Priority will be given to students and researchers early in their careers and to minorities and women.
