

ADVANCES IN COMPUTATIONAL HEAT TRANSFER

The International Centre for Heat and Mass Transfer is pleased to announce CHT-15, 6th International Symposium on Advances in Computational Heat Transfer, to take place in Rutgers University, Piscataway, USA, during 25-29 May 2015. The Symposium will jointly sponsored by ICHMT, Rutgers University, and Begell House, Inc. The conference is dedicated to Professor Suhas Patankar, who has been a pioneer in the field of Computational Heat Transfer and who has been a major force behind much of the recent work in CHT. A special honor is also planned for Professor Graham de Vahl Davis, who has spearheaded these conferences and contributed extensively to the field. Important Announcement: Besides the ICHMT Grants for young scientists, some funding is available from the National Science Foundation (NSF), USA, for travel of American citizens and residents for travel to attend the conference. Those who are interested, please apply to the Symposium Chair, Professor Yogesh Jaluria. The grant would cover the registration fees and a portion of the travel expenses, the total being less than one thousand US Dollars per person. Priority will be given to students and researchers early in their careers and to minorities and women.
